Based in Istanbul, Turkey Rota Chemicals is an established and well recognized company in the production of shoe and leather finishing chemicals since 1976.

Rota exports shoe finishing products to Europe, Middle East and Asia. With our R&D capability, we are very flexible in understanding our customers needs and responding with product offerings.

In 2000, ROTA decided to expand its deep expertise in leather into shoe care products and launched Shoe Shine brand. Shoe Shine restores the natural shine and color of your leather goods and prolongs their lives with affordable and easy-to-use products.

In ROTA CHEMICALS our primary mission is to deeply understand our customers' needs and provide high quality solutions in the fastest way possible.
